DETAILED ACTION

Allowable Subject Matter

Claims 7-14 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is listed on the PTO 892 of record. None of the references anticipate or make obvious, *inter alia*, simultaneously subjecting a top surface and a bottom surface of the substrate to a charge neutralization plasma in gas mainly composed of an inert gas while the substrate is separated from the electrode, so that electric charges on the substrate are neutralized and so that the top surface and the bottom surface of the substrate are made substantially equal in potential. The charge neutralization of Figure 3 of Misumi occurs when wafer is attached to surface 18. Therefore, Claims 7-14 are allowed over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander G. Ghyka whose telephone number is (571) 272-1669. The examiner can normally be reached on Monday through Friday during general business hours.
